### **CONSIDERATION OF THE FINAL CPS HR CONSULTING MANAGEMENT TOTAL COMPENSATION STUDY RESULTS**

Alex Clifford, CEO/General Manager, gave a brief background on the Management Classification Study detailed in the October 12, 2018 staff report from its inception to present.

Jennifer Ramos, CPS Classification and Compensation Manager, spoke to the attached presentation and explained the history of the study, the methodology used in doing the rework, the results, trends being reflected and some of the decisions that METRO may consider for implementation. The market median was determined and then reviewed to see where the District aligns. CEO Clifford said it was what the Personnel/Human Resources Standing Committee (Committee) agreed to, but it also requested the 5% above and below the median figures as well. Ms. Ramos reviewed the district-wide results for total compensation and base salary. The trend is telling us that Santa Cruz is lagging in the labor market in both total compensation and base salary.

CEO Clifford asked if three or five years is the standard for redoing these studies. Ms. Ramos replied that three years is the most common because that is usually the life of a contract and is best practice.

Joan Jeffries, SEIU President, inquired if the data from all ten labor market agencies in the staff report reflects the new information or the previous version? Ms. Ramos said that CPS went back and vetted new data from all ten agencies. However, based on an agreement that had been made, CPS chose to reflect seven agencies for the report. The appendix includes all received information to date. Ms. Ramos reiterated that the data captured in the original study has been reworked quite a bit so the past study is no longer reliable information. The current study is more accurate and we are moving forward from that point.

Angela Aitken, CFO, said the information in the staff report and the attachments was the best information we had at the time the agenda was posted. We were waiting for Santa Barbara and CPS was having difficulty getting information from them. It was received this morning and is reflected in the new spreadsheets being handed out. Ms. Aitken delved into the specifics of the data. With this new information from Santa Barbara, we anticipate lower numbers because Santa Barbara is a smaller agency. Her quick analysis indicates the cost to adopt the recommendations will be below the budgeted number included in the FY19 budget. Kristina Mihaylova, Senior Financial Analyst, will run that information with these new figures to get a more accurate cost. CEO Clifford clarified that METRO is focusing on total compensation.

Director Bottorff asked if compaction and differentials have been addressed and if these create any problems? Ms. Aitken said we need to review that with the new figures. Director Bottorff suggested using an organization chart and plotting these numbers so we can see how this plays out if we are going to implement this.

CEO Clifford reminded the Directors that METRO, because it is a smaller, matrix organization, should not run into compaction issues. Director Bottorff said he understood that but expressed concern that METRO may be creating a problem and that it would be nice to see the data laid out on an organization chart. Director Leopold suggested that in the analysis that comes to the Board, METRO look at all of these things and make sure there is no compaction. CEO Clifford said that will be double-checked.

Director Leopold suggested Director Bottorff's concern lies in the sense that if we did a Class and Comp Study on SEIU positions over time but haven't done the managers in a long time, there is a risk of compaction between the management staff and SEIU staff. CEO Clifford said it is a good point because what could happen is that we get through the SEIU process and recommendations are made that we like and now all of a sudden we have three positions where we elevated a represented employee to having a less than 5-10% difference between their unrepresented manager that creates compaction. We will come back to the Committee then to address those one-offs.

CEO Clifford said the managers will have an opportunity to discuss with CPS the logic used to achieve these results; and in some cases, may have valid arguments for changing these figures. If so, CPS could suggest a tweak to some numbers before the October 26, 2018 Board meeting. CEO Clifford requested authorization to continue the process between now and the Board meeting and make adjustments if needed. Director Leopold requested those differences be laid out in the October 26, 2018 Board report.

CEO Clifford elaborated on the pros and cons of creating a six-step range versus a pay-for-performance program. He recommended METRO begin with a six-step range, as it currently has, since it is a smaller organization. He requested the Board allow him to enact a six-step range process while allowing the Board the flexibility to implement a pay-for-performance program in the future should they so desire.

CEO Clifford explained the maximum the Board would adopt with this recommendation would be the maximum depicted in the report for each position. METRO would work backwards from the maximum in 5% increments to achieve the six steps. If the employee is currently at Step 3, he/she would transition to Step 3 in the new scale.

Public Comment: None

**MOTION TO FORWARD THESE RECOMMENDATIONS TO THE FULL BOARD AT THE OCTOBER 26, 2018 BOARD OF DIRECTORS MEETING; PROVIDE THE CEO DISCRETION TO MAKE MINOR MODIFICATIONS THAT MIGHT OCCUR BETWEEN NOW AND THE BOARD MEETING AS A RESULT OF MANAGER/CPS ONE-ON-ONES; AND, DELEGATE THE CEO TO ESTABLISH A SIX-STEP RANGE PROCESS.**

**MOTION: DIRECTOR LEOPOLD**

**SECOND: DIRECTOR DUTRA**

**MOTION PASSED WITH 4 AYES (Directors Bottorff, Dutra, Hagen, and Leopold)**

**Director McPherson was absent.**

Meeting was adjourned at 11:39 AM by Director Bottorff.

Respectfully submitted by,

### Market Median

- The labor market median monthly maximum salary which is calculated using the maximum monthly salary for each of the comparable classes; that range of data is then computed to provide the median or mean amount.

### Percentage District Above/Below Market

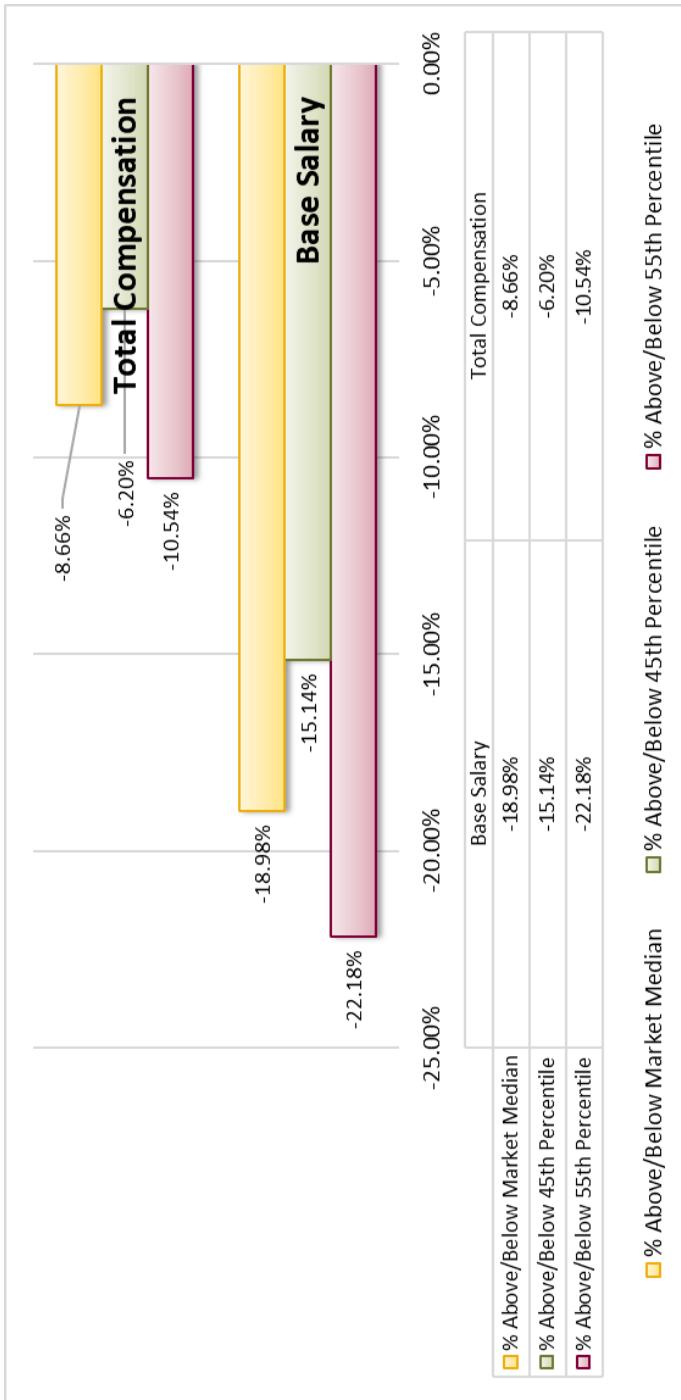

- The percentage the District's maximum monthly salary is above or below the median of the labor market; this number indicates what percentage of the District's salary is required to move it up or down to the market median.

### 45<sup>th</sup> & 55<sup>th</sup> Percentile

- The District requested that 5% below and 5% above the median be presented; therefore, the 45<sup>th</sup> and 55<sup>th</sup> percentiles have been reported for the District's compensation considerations. The 45<sup>th</sup> and 55<sup>th</sup> percentiles represent 5% below and 5% above the District's established labor market median.
